Living Our Values:
Enduring Excellence, Intentional Inclusion, Perpetual Discovery

Trinity's core values act as guideposts for all we do, informing our interactions with one another and our decision-making as an institution. Values are not a goal to be realized, or a place where we arrive, but an on-going journey that we live and experience as we go. Some, like Intentional Inclusion, are aspirational for us, as we try to live more fully into that value. Regardless, we must endeavor to hold ourselves and each other accountable to these shared values, recognizing when we stumble and learning how to be better together as we pursue lives of meaning and purpose.
